

University of Missouri

University of Missouri Geology Field Camp Information Acknowledgement Form

Physical Conditioning

I, (enter name) understand that days in the field will involve considerable hiking (commonly 3-7 miles/day) at elevations between 4,500 and 9,000 ft.

I, (enter name) am aware that I am responsible for getting physically ready for the demands of field work prior to the start of the course.

Health and Medical Insurance

I, (enter name) understand that, although medical insurance is not a requirement for acceptance to the course, I am strongly encouraged to carry my own personal accident and/or medical insurance plan while attending the course.

Please check the appropriate box below.

☐

I will provide my own health insurance

☐

I will not provide my own health insurance

Meal accommodations

We will strive to make reasonable meal accommodations for students on plant-based diets (vegetarian/vegan), as well as those with severe food allergies (e.g., nuts, lactose, gluten/celiac disease).

Because of the limitations imposed by our remote location, our kitchen, and the amount of people we serve, our camp will be unable to accommodate certain dietary preferences (e.g., kosher, halal), as well as accommodate students who desire to fix their own meals.

All students are encouraged to contact the camp director before completing their applications with any questions regarding meal accommodations.

I, (enter name) acknowledge that I have read the information above regarding meal accommodations at the University of Missouri geology field camp.
